

2016 Key Stage 2 Results

The table below shows the levels of attainment (how well they did) and progress (how far they came since Year 2) of Year 6 children for the academic year 2015/16.

Please note that the levels are provisional and will be confirmed once the Performance Tables are published later in the year. Any changes are likely to be very small, if any at all.

The results show that the children did very well, with levels of attainment being above national figures in mathematics, reading, writing and Grammar Punctuation and Spelling.

Perhaps even more importantly the table shows that the progress children made from Key Stage 1 to Key Stage 2 was also good. The official wording is " Progress (sometimes known as value added) was on average better compared to those children with similar prior attainment nationally."

Subject	% of pupils working at the expected standard	National average 2016	Average progress/ value added	% of pupils working at greater depth	Average scaled score	National average 2016
