

Dear Parents and Carers

Myself and the rest of the staff team continue to be impressed by the work the children are completing at home. Thank you for all that you are doing to support the children with their learning. We recognise that it is not always easy to complete all of the tasks set each day, that many of you are juggling home learning, work, parenting younger children, the list is almost endless! We do appreciate all that you do and please remember there will be some days when learning at home does not go to plan and we understand this. We are here to support and help you and your children, so please do call if we can help with technology, Wi-Fi or if you think your child would benefit from a phone call from their teacher. Many of you have welcomed the phone calls home from members of staff. We will continue to make these calls to help support you and your children at home. For those families whose children attend school, do stop and chat with me at the beginning or the end of the day if you need any additional support.

Parents evenings

We will be holding parents' evenings (virtually) on Monday 1st and Tuesday 2nd March. We will be sending out information about how to book an appointment with your child's class teacher so please do look out for these emails.

Next Tuesday (9th February) is internet safety day, #saferinternetday. We will be doing work on this with all of the children and will explore how you can tell fact from fiction online. Further information can be found at www.saferinternetday.org.uk where you will be able to find out how to get involved as a parent.

Other news

Thank you to everyone who has joined in the with the UK's Biggest Art Exhibition. It's still not too late to take part: the theme this week is animals - so paint, photograph, make models to display in your gardens and/or windows for everyone to enjoy on their walks. Please do send in your photos to school and we will put them together for another online exhibition! Here is a lovely bright photo from Amelia and Tilly who have decorated their window at home.

Our year 3 and 4 children have been making Bird feeders to entice the birds into the school grounds.

Here is a link to one you could try making at home from the RSPB

<https://www.rspb.org.uk/fun-and-learning/for-kids/games-and-activities/activities/make-a-recycled-bird-feeder/>

Have a lovely weekend,

With best wishes

Deborah Nind and the William Fletcher Team
