

Dear Parents and Carers

At the start of the half term break a member of my family tested positive for COVID-19. This has meant that I and the rest of my family household have had to have a period of isolation in line with national guidelines.

Unfortunately, I am not able to return to work next week and will be working from home. Mr Lister will be in charge during my absence from school. I am disappointed not to be with you on Monday and welcome you and your children back to school. However, I know that the whole WF team will work to ensure that the children's return to school is calm, purposeful and enjoyable.

I would like to reassure you that the member of my family who has the virus is making good progress in their recovery and that all others in my family are well. I look forward to returning to WF on Monday 9th November,

Kind regards

Deborah
